

INSTITUTIONAL PRESENTATION BOOK

Letter Ecosystem 2026 • High-Governance, Attraction & Strategic Alignment Document

Market Manifesto & Business Vision

LETTER is a pioneering fiduciary technological infrastructure platform (B2B Fintech) developed to transform corporate assets in financial asphyxia (distress) into high-liquidity and predictable cash flow pipelines.

Target Audience: Directors, Wholesale Investment Committees, Commercial Superintendents, and Partner Banks.

CHAPTER 2: OTC PORTFOLIO (PART 1 - SDC, LEASE EQUITY & QUITCON)

Structured Solutions for Working Capital & Asset Monetization

1. SDC (Structured Consortia)

- **Concept:** Transformation of awarded consortia quotas into fast Working Capital (4.5% p.m. simple interest).
- **Liquidation:** Final Bullet Maturity upon quota closing.

2. Lease Equity

- **Concept:** Monetization of trapped real estate equity without asset sale via Private Commercial Note and RGI Low-Cost Pact.
- **Yield/Upfront:** 0.4% p.m. recurring reward or upfront discount under Price Table.

3. QuitCon (Consortia Outstanding Balance Arbitrage)

Accelerated payout of invoiced assets tied to consortia via debt assumption and collateral replacement. Gross balance deflated at 1% p.m. to Present Value with 10% success fee in Escrow.

CHAPTER 2: OTC PORTFOLIO (PART 2 - FLASH CAPITAL, INVEST & MARKETPLACE)

Liquidity Solutions, Tokenization & Awarded Quotas

4. Flash Capital & 5. Flash Invest

- **Flash Capital:** Immediate liquidity (LTV up to 40%) via resolvable property ownership transfer and tenant repurchase right.
- **Flash Invest:** Tokenized fractional capital allocation (ERC-1155 / ERC-3643) yielding SDC & Flash Capital pipelines.

6. Awarded Quotas Marketplace

- **Storefront:** Closed marketplace for commercialization and upfront assignment of premium value (ágio).
- **Tax Relief:** 100% exempt from Commercial Invoice issuance via Electronic Settlement Receipt.

CHAPTER 2: OTC PORTFOLIO (PART 3 - AUCTIONS & SAAS)

Aggressive Liquidity Algorithms, Double Payout & Vertical SaaS

7. Auction Floor & 8. Double Payout

- **Progressive Discounts:** Recovered assets enter catalog at 80% AVM, with automated price decay over time.
- **Double Payout:** Unified OTC transaction settling auction property and financing credit quotas simultaneously.

9. Vertical SaaS (Monthly Lead Software)

- **Outbound Software:** Sold to affiliates for BRL 199.90/month.
- **Automation:** Nina Engine scrapes web portals, identifies distress properties, and injects qualified leads.

CHAPTER 3: THE LETTER STAMP OF APPROVAL (VALID-STAMP)

Proprietary IP, Deep Audit & Cryptographic Security

What is the Letter Stamp?

Advanced, automated, deep-audit cryptographic signature generated 100% by Nina Engine AI. Acts as a "digital security template" verifying assets without human error.

- **Automated Audit:** ONR/SERP data, electronic deeds, and CNIB freeze tracking.

Screening & Cryptography

- **8-Pillar Normative Screen:** Evaluates brand parity, vehicle age, zoning, and income multipliers.
- **Facial Biometrics:** Liveness SDK debtor authentication.
- **SHA-256 Hash:** RS256 standard recorded on private blockchain ledger.

CHAPTER 4: COMPLIANCE, IT & INTERFACE SECURITY RULES

Data Shielding, Storefront Lock & OCR Fiscal Gated

Anti-Bypass & 60-Minute Cyber Lock

- **Data Shielding:** Virtual Office hides buyer contact details, blocking external off-platform diversion.
- **60-Minute Lock:** Checkout activates a digital storefront lock window preventing external double selling.

OCR Regularity Stamp (Hold Fiscal Gated)

- **PENDING_FISCAL:** Commissions start in restricted security status.
- **Automated Audit:** Unlocking wallet balances requires automated OCR invoice/receipt auditing within 5 business days.
